Click “Forgot login or First time logging in”
To access the Alumnae Directory, go to: Directories > Alumnae

The Alumnae Directory will allow you to pull class lists and search for your classmates’ contact information. To search for your classmates’ professional information, we encourage you to join LinkedIn (https://www.linkedin.com/grp/home?gid=2110805), a powerful professional tool and the best place to connect online with fellow alumnae to find jobs, professional connections, and networking opportunities.

The Directory is searchable (use the “Include All Fields” button to search more than names) and sortable by Grad Year, School (College), Industry, City, State and Zip. The sort options are to the right on a computer screen, and displayed as a bar at the top of the screen on mobile devices:

(Options menu on a mobile device)
If you want to email everyone from your class, your class page makes this easy:

Select the class from your Groups:

Go to the Roster

Click on either Members or All (they are the same)

Clicking will add all of the addresses to the BCC field of your default email client. If you don’t have a default email client set up, copy & paste the addresses into your email program. You may have to separate them differently with in order for your email to separate the addresses properly.
